

LIGHTBOUND
ADVANCED INTERNET

ALWAYS ON. ALWAYS AVAILABLE.

Fast, reliable Internet isn't a luxury. It's non-negotiable in today's always-connected world. If you've outgrown "business class" you've come to the right place.

No other Internet provider in Indiana offers ten local and international carriers. If a connection is lost, we automatically and seamlessly route your packets to one of many other carriers, minimizing downtime and lost revenue for your business.

RESPONSIVE TECH SUPPORT. SERIOUSLY.

We built our reputation on local, fast, responsive 24/7/365 support. Our Net Promoter scores prove we are among the best in the nation.

INTEGRATED WITH YOUR IP FOUNDATION

LightBound's Advanced Internet is built on our rock-solid, enterprise IP Foundation. You can also count on 24/7/365 monitoring and management of your internet service, ensuring your business has the ultimate in scalability, uptime, and speed.

- Unmatched Redundancy – 10 upstream carriers
- Lightning Fast – 10 Gbps to each carrier
- Flexibility – Internet access from T-1 to 10 Gbps
- Extreme Scale – 100 Gbps of total bandwidth available
- The highest level of scalability, redundancy and speed in the local market
- Burstable – Massive scale when you need it
- Increase your capacity quickly as your needs change
- Advanced charting and monitoring
